We strive & dedicated to continue development to achieve 'Common Goal'

INTRODUCTION

MTN is the name of one of the most reputed leader in the facility services. We are delivering excellence our customers to enhance their business & maintain the standards by **Specialized Community Services** such as Abseiling (High, Difficult or Confined Access) Cleaning & Maintenance works.

Our services have a distinct focus on indoor environmental improvement for residential, industrial and commercial sectors within the United Arab Emirates.

VISION

To be a leading provider of quality services by understanding UAE people expectations & Standards.

MISSION

MTN is an approachable service provider. Working together with our clients we create specialized solutions.

We provide our services with quality equipment and share the knowledge of our highly trained and experienced team.

SPECIALIZED SERVICES

FACADE CLEANING BY ULTRA HIGH PRESSURE WATER JETTING

The periodic clean of the surface, (whether is concrete, sandstone, brick/block work or tiles) helps to extend the lifespan and value of the surface. For those hard to clean areas on buildings and other high rise structures, Our qualified team has many years of experience guaranteeing the technical know-how necessary to deliver the best pressure-cleaning finish possible. This also includes knowing the right cleaning materials to clean the buildings' glass, concrete, tiles and aluminum cladding.

We take pride in delivering the best External Facade Cleaning Service while adhering to our clients' schedules and safety measures.

WINDOW GLASS CLEANING

MTN offers a quality Window Cleaning Service to our both commercial & Residential clients. Window Cleaning, Height & Industrial work throughout the Region - by **Rope Access, Cradle, Scaffolding or Building Maintenance Unit.**

Apartment, Buildings, Warehouse, Factories, Schools, Hospitals, Stadiums, Hotels

OTHERS

Cleaners Supply, Helpers Supply, Event Supply

In the case of managing, we abide by a simple principle: challenges made us special. At any time, and under any conditions. For this, we use the latest technology and procedures. Our efforts to establish a Quality service in the industry separate us from others”.

HIGH ACCESS LEAKAGE REPAIR (PLASTERING) & PAINTING WORK

We offer national and international onshore and offshore inspection, maintenance, painting, and integrity services. Working at height, we access high-risk and difficult to reach spaces safely, productively and with a broad range of technical skills. A professional applicators knows how to prepare the surface before any paint is applied. Power washing the surface is the first step in most cases, and may be followed by scraping loose paint and possibly sanding. We are experts, and knowwhat treatment your job requires to insure that work is done properly.

- * Plaster works
- * Leakage Repairing
- * Restoration and painting
- * Painting and waterproofing
- * Jet spray
- * Sandblasting
- * Spray painting and Roller brush
- * Full surface preparation
